Kayaking Guide for Beginners
Neupane, Biseswar Prasad (2012)

The aim of the thesis is to study about the kayak and kayaking, and to provide detailed information for the beginners, about how to start kayaking and to reduce risk. With the study from different books, magazines, and online as it has been realized that each and everything has its own form and functions. In order to enjoy kayaking one should have the right information. This thesis provides the reader with necessary information about kayaking, to reduce the risks in the water. Experienced paddlers will have less risk as they are already used to with the upcoming situation; due to lack of proper information beginners bear unnecessary risk in the water. The detail information of thesis provides the paddler to handle the dangerous situation and have fun in the water.
Getting started with kayaking is pretty easy because the sport is so widespread. There are plenty of places to go kayaking in the UK that can hook you up for your first time and will have a built in community of kayakers to hang out with and learn from. "Whitewater Kayaking For Beginners." WRITTEN BY Jacopo Nordera. Planning to hit the rapids in India? Kayaking is definitely an upcoming sport in India today. The huge amount of annual rain fall, the vast number of rivers and lakes, the many kilometers of coastal shores, the tropical temperatures and the beauty of the scenery puts India in a very special position for the lovers of this sport. Couple that with the growing interest and inspiring commitment from the local paddling communities, and India’s whitewater scene is one to watch for sure. I have been slowly gaining the knowledge to become a Forest Therapy Guide and I plan on achieving that in the next five years. Read next on TOJ: 3 Sons & A King: Documentary Film Review. Recent Articles. Kayaking Tips For Beginners. #1 – Don’t Set Out Without A Life Jacket. A kayaking life jacket is going to be more streamlined than the average life jacket. Check out this video from Paddle TV. Beginner Paddling Techniques. Paddling is one of the most important parts of kayaking. If you don’t paddle correctly, you could be putting yourself and others in danger (a paddle to the head hurts).
