In the United States almost everybody reads the Kinsey Reports—or reports about them. Thus, almost everybody knows that of the 5940 white females (let's call them women) whom Kinsey and his associates studied:

1) 62% had masturbated;
2) 53% had petted to orgasm before marriage;
3) 50% had had premarital relations and 69% of the 50% had no regrets;
4) 26% had had extra-marital intercourse before age of 40; and
5) 19% had had some experience with Lesbianism.
